

1 MINUTE DIGEST

Establishment of ITE's first **Beauty Therapy** Training Centre

In January 2006, the College opened the doors of its Beauty Therapy Training Centre to its pioneer batch of Beauty Therapy students. Designed with valuable input from Cosmoprof International Pte Ltd, a well-established industry player, the comprehensive facility provides an environment that is professional, holistic and realistic. Consisting of a "Nail & Make-up Therapy Studio" and "Beauty & Wellness Spa", the Centre is designed to ensure that our students have the perfect setting in which to develop and hone their skills. The partnership with Cosmoprof also meant that our students would have the opportunity to be trained in Spa techniques like, "Hydrotherapy Treatment" and "Body Wrap Treatment" at its academy, and on occasion have the professionals deliver lessons or talks, to update on the relevant industry knowledge.
