

# Training courses in beauty & make-up

ESTABLISHED in 1986, Cosmoprof Academy is one of Singapore's most established and recognised training institutions in the provision of vocational training courses in aesthetics, beauty, make-up, spa and wellness.

In its 25 years, Cosmoprof Academy has achieved innovative first in Singapore as well as overseas. Some of them include the first to attain ISO 9002 Quality Certification for a beauty/make-up academy in 1995, the first and only Singapore company to provide make-up services to the International Grand Finals of the Miss Universe beauty pageant in 1987, the first and only make-up school to accompany local theatre group overseas to Beijing, Bangkok and Kuala Lumpur in their performances (Chang & Eng the musical) and Cosmoprof Academy is also the first to present and popularise face painting to Singaporeans on a mass scale during the National Day Parade in 1997.

Cosmoprof is widely acknowledged to be Singapore's most established and premier make-up training institute. We have built our reputation and credibility through a solid foundation of make-up credits.

Cosmoprof is the first to introduce Body Art, Face Painting, Air Brush Body Art in Singapore through our production "Move to Make-up" which featured dancers dressed in Body Art instead of traditional costumes. The show was commissioned by National Arts Council for the Singapore Festival of Arts Fringe 1992.

Cosmoprof is the first to introduce Face Painting to the masses through National Day Parade 1997. A team of 150 make-up artists face painted spectators at the parade, performers and contingents. We sponsored more than 80,000 face painting kits in 1997 and the same quantity at the 2001 National Day Parade.

Comprising 43 lessons, this comprehensive course includes all aspects of beauty make-up such as fashion, bridal, photographic make-up, as well as theatre makeup, special effects make-up, body art, face painting and hairstyling. The Diploma in Professional make-up Artistry will equip its students to work as a professional make-up artist.

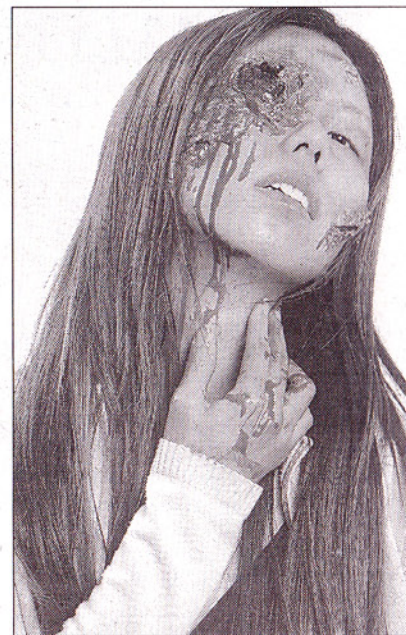

This hands-on course teaches students from the fundamentals such as recognising and using the correct make-up tools and cosmetics and creating a flawless base for foundation to professional make-up for bridal and fashion make-up. One of the major highlights of the Diploma in Professional make-up Artistry course is that the students get to pick up special effects skills such as face painting, body art, casualty make-up and modelling works.

Combined with the module on hairstyling to create total makeup looks, the students get to build up their personal makeup portfolio nearing the end of their course. This portfolio is not only an important part of the module course but is also to showcase the graduating students' creativity and all the skills and talents that they have picked up for potential employers and clients to view their capabilities.
